1 Introduction

1.1 Purpose of the Test Plan Document

Freshii is a Canadian fast casual restaurant franchise that serves burritos, wraps, soups, salads, and frozen yogurt. It was founded in 2005 by CEO Matthew Corrin, and has since expanded to over 100 locations in countries including Canada, the United States, Colombia, Peru, Sweden, Austria, Switzerland, Ireland, and United Arab Emirates, with franchises under development in Germany, Guatemala, and Saudi Arabia. Freshii has 370 locations in North America, South America, and Europe.

Freshii is building a stable online platform and has partnered with busyQA to ensure that the quality and usability is as good as their food.

This document serves as test planning document with details on the scope of the project, test schedule, test deliverables and, entry and exit criteria.

2 Scope

The scope of the project includes testing the following features of '[https://web-
uat.freshii.com/en](https://web-uat.freshii.com/en)' web application.

2.1 Inclusions

➤ From our understanding, we believe the below functional areas need to be Tested.

- Skip Flow
- Sign Up
- Sign In
- Ordering
- Order receipt under Order confirmation and Order History
- Add/Remove Credit Card
- Gift Cards
- Allergens
- Upsell
- Account
- Store Selection

2.2 Test Environments

- Windows 10 – Chrome and MS Edge
- Mac OS – Safari Browser
- Android Mobile OS – Chrome
- iPhone Mobile OS - Safari

2.3 Exclusions

- All the features except that are mentioned under 'Inclusions'
- Any third-party features
- Test Automation

2.4 Test Deliverables

The following are to be delivered to the client:

Deliverables	Description	Target CompletionDate
Test Plan	Create a story titled “Test Plan”. Attach your test plan into the story for review	December 17 th , 2022
Create Test Cases	Test cases & script created in excel sheet	December 21 st to 27 th , 2022
Explore functionalities	Explore the functionalities of the Freshii application.	December 14 st to 27 th , 2022
Create Bug Report	Document the defects found. <ul style="list-style-type: none">- Include Steps to reproduce and screenshots if applicable	December 21 st to 27 th , 2022
Report Bugs as Issues	<ul style="list-style-type: none">- Create bug issues and assign to the PO for review- Defects should be left in the ‘To Do’ pile for review	December 21 st to 27 th , 2022

2.5 Entry and Exit Criteria

The below are the entry and exit criteria for every phase of Software Testing Life Cycle:

Test Planning

Entry Criteria:

- Testable Requirements derived from Project details
- Doubts are cleared

Exit Criteria:

- Test Plan document is signed-off by the Team

Test Designing

Entry Criteria:

- Test Plan Document is signed-off by the Test Lead

Exit Criteria:

- Test Scenarios and Test Cases are signed-off by the Team

Test Execution

Entry Criteria:

- Test Scenarios and Test Cases reviewed
- Application is ready for Testing

Exit Criteria:

- Test Cases executed (passed/fail/blockage), any Defect added in 'To Do' pile

Test Closure

Entry Criteria:

- All tasks and stories in the To Be Reviewed pile, Defect(s) left in

To Do pile

Exit Criteria:

- All tasks reviewed and approved

3 Roles/Responsibilities

Name	Role	Responsibilities
Cheryl Kennett	Test Lead	<ul style="list-style-type: none">✓ Create the Test Plan and get the client signoffs✓ Interact with the application, create and execute the test cases✓ Report defects✓ Escalations✓ Coordinate the test execution.✓ Attend any meeting with Scrum Master/Client.
Harakshjot Singh	Test Engineer	<ul style="list-style-type: none">✓ Interact with the application, create and execute the test cases✓ Report defects
Swetha Jagannath	Test Engineer	<ul style="list-style-type: none">✓ Interact with the application✓ Create and Execute the Test cases.✓ Report defects
Zain Chauhan	Test Engineer	<ul style="list-style-type: none">✓ Interact with the application✓ Execute the Test cases.✓ Report defects
